

REMARKS

Claims 1-10 remain pending the application. The Specification has been amended by substitution of a new Abstract as set forth on replacement page 1. This Second Preliminary Amendment is made in response to the Notice of Missing Parts stating that the originally filed Abstract was not in compliance with 37 C.F.R. 1.72(b) in that it exceeded 150 words in length. The replacement Abstract consists of less than 150 words. Accordingly, it is believed this application is fully compliant with all regulations relating to formalities. Examination of the application at the earliest opportunity is respectfully requested.

Respectfully submitted,

TAMON ITAHASHI, *et al.*
